

Valencia Summer Program – AIP COURSE OFFERINGS & EQUIVALENTS Summer 2020 and beyond

The University at Albany's summer option at the AIP Language Institute in Valencia offers courses designed specifically for our students. Total beginners in Spanish are welcome. Classes are taught at the AIP Language Institute where class sizes are small in order to encourage open discussions and provide opportunities for individual assistance.

The Spanish language courses offered are meant to give students an intensive course in Spanish language, including grammar, composition and conversation. The AIP Language Institute is affiliated with the *Instituto Cervantes* (Cervantes Institute) which establishes official qualifications certifying levels of competence in the Spanish language, as recognized by the Spanish Ministry of Education, Culture, and Sport.

In addition to the required Spanish language course, students choose one 'optional' course in order to better understand the culture in which they are living. These courses are taught in English, with the exception of the Spanish literature course that is also offered in Spanish for students with at least intermediate level proficiency in Spanish.

The Spanish departments at the University at Albany has determined the following equivalents for **UAlbany** students on this program. **These equivalents will be automatically assigned for UAlbany students; no pre-approval form is required.** Since it is possible for courses to have more than one equivalent if the subject matter overlaps several disciplines, students may ask their academic advisors to consider different equivalents based on the syllabi they submit along with such requests.

Non-UAlbany students must ask their own academic advisors at their home campus for a determination of the level of credits/equivalents they will receive. **Any courses not assigned a specific equivalent will count as general elective credits for all SUNY students.** Non-SUNY students must get permission from their home campus to transfer in all courses. We strongly recommend that all students keep a copy of all course descriptions and/or syllabi.

All UAlbany students who successfully complete this program will automatically fulfill UAlbany's general education requirements in International Perspectives and Foreign Language. In addition, students who successfully complete the specific courses indicated below will also fulfill Humanities OR Arts.
